*Vision Sunday 2016*

**THE GOSPEL, THE BLUEPRINT,  
AND THE CROSS**

**1 PETER 2:24:** He himself bore our sins in his body on the tree, that we might die to sin and live to righteousness.

**1 PETER 2:24:** He himself bore our sins in his body on the tree, that we might die to sin and live to righteousness.

## BLUEPRINTS

Christ's exaltation is our AIM!

1 PETER 2:24: He himself bore our sins in his body on the tree, that we might die to sin and live to righteousness.

## BLUEPRINTS

Christ's exaltation is our AIM!

### LIFE WITHOUT GOD IS OUR DEFAULT BLUEPRINT

- What happens when somebody challenges your blueprint?
- Can there be a *Better Blueprint*?

## THE GOSPEL

- **CHRIST** dies and is resurrected
- **RESULT:** sin, Satan, death and evil are dealt with.
- **OPPORTUNITY** for a new blueprint is available

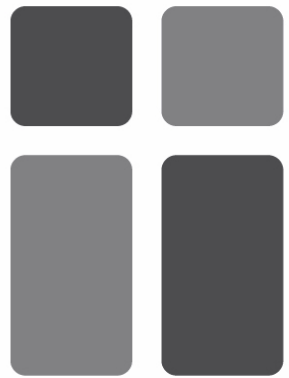

## THE GOSPEL

- **CHRIST** dies and is resurrected
- **RESULT:** sin, Satan, death and evil are dealt with.
- **OPPORTUNITY** for a new blueprint is available

*The **NEW BLUEPRINT** is Christ's narrative of death and resurrection.*

---

**1 PETER 2:21-25:** For to this you have been called, because Christ also suffered for you, leaving you an example, so that you might follow in his steps. <sup>22</sup> He committed no sin, neither was deceit found in his mouth. <sup>23</sup> When he was reviled, he did not revile in return; when he suffered, he did not threaten, but continued entrusting himself to him who judges justly. <sup>24</sup> He himself bore our sins in his body on the tree, that we might die to sin and live to righteousness. By his wounds you have been healed. <sup>25</sup> For you were straying like sheep, but have now returned to the Shepherd and Overseer of your souls.

## *Elders*

The primary spiritual leaders of a congregation are the elders, who are also called overseers or pastors in the New Testament. Elders teach or preach the Word and shepherd the souls of those under their care (Eph. 4:11; 1 Tim. 3:2; 5:17; Titus 1:9; Heb. 13:17).

Peter says: “I exhort the elders among you: Shepherd God’s flock” (1 Pet. 5:2; see also Jn. 21:15-16 & Acts 20:28).

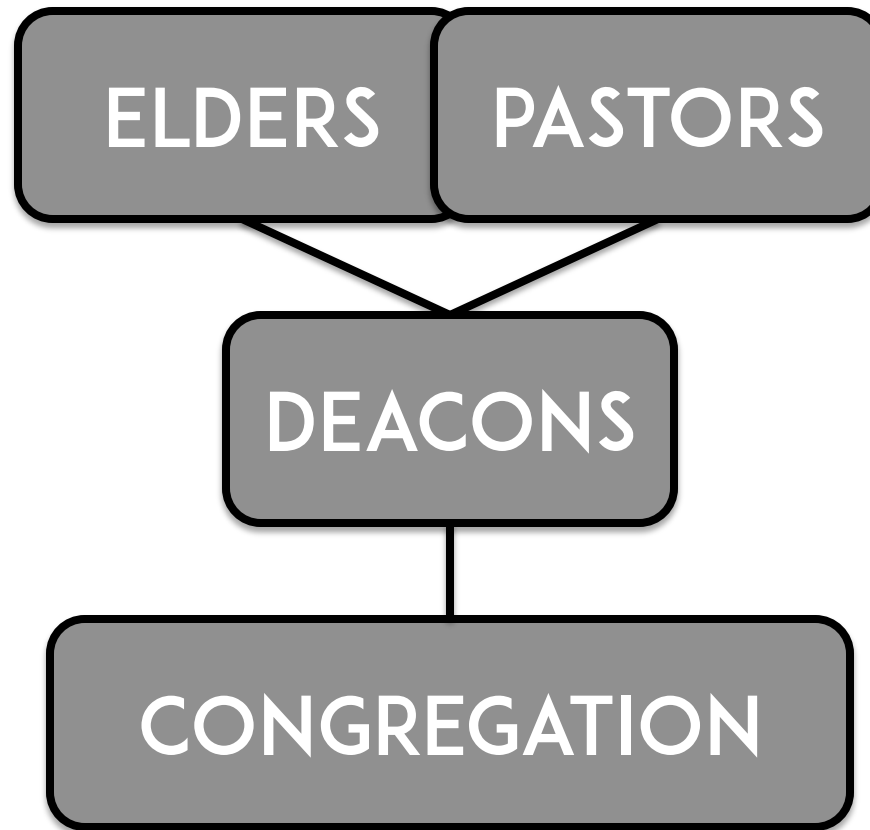

### *Four Primary Duties:*

**TEACH | LEAD | MODEL | PRAY**

---

## *Deacons*

The role of deacons is to take care of the physical and logistical needs of the church so that the elders can concentrate on their primary calling. (Acts 6:1-6)

# MACK AVENUE CORRIDOR DEVELOPMENT PLAN

## ALTERNATIVE LAND USE TYPOLOGIES - DRAFT

### ORCHARD

The Orchard strategy creates organized spaces on available land for growing fruit or nut trees. Orchards provide multiple benefits, including their ability to soak up water during storm events and economic development opportunities.

### RAIN GARDEN

The Rain Garden captures stormwater and slowly releases it into the soil, keeping it from entering the sewerage system. This landscape includes a mixture of native and non-native plants.

### COMMUNITY GARDEN

The Community Garden strategy provides opportunities for local food production, economic development, and stormwater management.

### MEADOW

The native Meadow strategy will add color to the corridor while creating habitat. The native perennials in this strategy will capture, hold, and absorb stormwater.

### REAR PARKING

The Rear Parking strategy is accessible from the alley and makes vehicles less visible from the street. This makes for a better appearance from the street, and also protects vehicles. The paved parking pad allows water to infiltrate the ground instead of running quickly into the street and into the sewerage system.

### TREE FARM or shade maker

The Tree Farm strategy creates organized spaces on available land for growing trees that can later be sold and transplanted to another site. Neighborhood-based tree nurseries provide multiple benefits including their ability to soak up water during storm events and reduce DWSD drainage charges on commercial lots.

### EDGE-MAKER

The Edge-Maker strategy provides a landscaped barrier to alleys, side roads, and adjacent properties, creating a visual screen and helping to prevent illegal dumping while improving the stormwater performance of a commercial lot. Flowering vegetation brings life and color to lot edges.

### POCKET PARK

The Pocket Park strategy provides small-scale public green space along with opportunities for community activities and stormwater management.
